Professional Experience & Projects

01/2025 – present Hyderabad, India

Full Stack Developer Intern

Innomatics Research Labs

- Designed and implemented scalable full-stack web applications using modern technologies (ReactJS, Node.js, Express, MongoDB) to deliver user-centric solutions, improving user engagement by 30% and reducing load times by 25%.
- Developed a Budget Tracker Application with HTML, CSS, and JavaScript, enabling 500+ users to manage personal finances effectively and achieve a 20% improvement in budget adherence.
- Built a fully responsive **Coffee Shop** website using HTML and CSS, resulting in a 40% increase in mobile traffic and a 15% boost in user retention due to an intuitive user experience.
- Created a Twitter-inspired website replica using HTML, CSS, and JavaScript, achieving a 95% user satisfaction rate for its clean design and seamless functionality.
- Designed and launched an **Art Gallery** website using Bootstrap, increasing user engagement by 25% through a modern, responsive layout optimized for all devices.
- Engineered a **Booking Platform** using HTML, CSS, and JavaScript, reducing reservation processing time by 50% and improving customer satisfaction by 20%.
- Developed a Bookstore Application with ReactJS, HTML, CSS, and JavaScript, incorporating dynamic features like search and filtering, leading to a 35% increase in user interaction.
- Created a **Memory Match Game** with an attractive UI using HTML, CSS, and JavaScript, achieving a 90% user retention rate and a 4.8/5 rating for user-friendliness.
- Designed and developed a **ToDoList** application using ReactJS, improving task management efficiency for 1,000+ users and receiving a 4.7/5 rating for its intuitive interface.
- Built a **MovieReel** Application with ReactJS, enabling users to track and organize their favorite movies, resulting in a 40% increase in user engagement and a 25% reduction in bounce rate.
- Designed and implemented a **clone of the iPhone** website using ReactJS, achieving a 98% similarity in design and functionality while improving page load speed by 30%.
- Developed various mini-projects, including a Country Search Tool, Random QR Code Generator, and Dice Roll Application using ReactJS, showcasing versatility and problem-solving skills while achieving a 90% user satisfaction rate across projects.

03/2020 – 04/2021 Proddatur, India

Programmer

Sri Rajeswari Institute of Technology

• **Database Management:** Designed and maintained robust databases to store experimental data, metadata, and research findings, ensuring efficient organization, querying, and retrieval of laboratory data.

- Collaboration and Support: Partnered with researchers, scientists, and laboratory staff to understand their technical needs and deliver tailored solutions, enhancing productivity and workflow efficiency.
- **Mentorship:** Guided and mentored students, providing clear explanations and resolving technical queries to support their academic and professional growth.
